Thanks Chase – I was able to retrieve the LIDAR data from the ftp site.

We had also requested flood plain soil and sediment sampling logs and results for the areas behind the Otsego Township Dam – Jeff Keiser initiated the request. I have not received the data and it is my understanding that CH2MHill did not receive the data either. Please post the sediment data to the ftp site also.

Thanks.

Your “Standard” FTP site has been set-up

Your “**Standard**” FTP site has been set-up and

a 'Test' folder created to ensure everything is working well.

You can use your FTP (file transfer protocol) site to exchange large files with colleagues and clients without using email.

To open your FTP site

- This is the unique link to your FTP site
<ftp://gp-transfer:kzoo13@amftp.amec.com>
- **Do not click the link! Use the following steps for quick and easy access...**
- **Copy** the above link
- Right-click on the **My Computer** icon on your desktop and select **Explore**
or
Using your keyboard, press and hold the **Windows** key and tap the **letter E** to display **My Computer / Windows Explorer**
- **Paste** the link you copied from above into the **Address** box and click **Go** or press **Enter** (You can type the details into the **Address** box if you prefer...)
- The site should open automatically for you (if not, see 'Tip' below)
- You can now copy files into your FTP site, create sub-folders if required, then email the same link to colleagues or external clients and easily exchange large documents
-  [This guide](#) gives step-by-step instructions on how to use an FTP site and details on how long the site will remain live

Tip

If the above does not work for you, to open the FTP site -

- Click this link <ftp://amftp.amec.com>
- A window opens displaying -
FTP root at amftp.amec.com
- Click the **Page** button  (or the **View** menu option) and then select **Open FTP Site in Windows Explorer**
- When asked for username and password enter these details
 - Username - **gp-transfer**
 - Password - **kzoo13**
